

INVITATION

Webinar "Avian Influenza (AI): Prevention is better than cure"

When? Friday 25th of April 2025 at 10.00-12.00 pm (CET)

Web-link? <https://slu-se.zoom.us/j/68258332971> **Passcode:** 684384

The webinar will be recorded.

Agenda

- Opening and brief introduction of the BroilerNet project
- General Concepts of HPAI in animals
- The current situation of HPAI outbreaks: where do we stand?
- Online self-assessment tool for farm-level risk factors for AI
- General Discussion

Invited presenters:

Prof. Jean-Luc Guerin, is professor in poultry medicine at the National Veterinary College of Toulouse, France and Director of the "host-pathogens interactions" joint research unit (INRAE-ENVT), covering animal infectious diseases in a One Health perspective. He is an EBVS® European Specialist in Poultry Veterinary Science.

Dr. Natàlia Majó-Masferrer is the Director of the IRTA-CReSA (Centre de Recerca en Sanitat Animal), Barcelona, and she is an EBVS® European Specialist in Veterinary Pathology as well as in Poultry Veterinary Science. She is Professor at the Department of Animal Health at the Autonomous University of Barcelona.

Dr Barbara Grabkowsky is the Director of the Center for sustainability transformation in areas of intensive agriculture (trafo:agrar) Vechta, DE. She has developed an online check of farm-level risk factors for AI, that was awarded BroilerNet Champion in 2024.

You are all most welcome!

Stefan Gunnarsson (stefan.gunnarsson@slu.se)

Coordinator of BroilerNet

BroilerNet aims to enhance the resilience and sustainability of the European broiler sector by creating space for interaction between science and practice and co-creation of ready-to-use innovative best practices on broiler farms in Europe. Partners from 13 countries are involved, both the broiler sector and research organisations, and the project is running four years.

This project has received funding from the Horizon Europe Research and Innovation programme under Grant Agreement No 101060979.
